PROFESSIONAL PROFILE

UI/UX and digital product designer pursuing an MSc in Artificial Intelligence in Berlin. Experienced in taking websites, web applications, and mobile interface concepts from requirements to user flows, wireframes, mockups, interactive prototypes, and responsive high-fidelity UI. At NEWWORK AI, contributed to Figma design systems and collaborated with product and technical teams. Also delivered a real client website from UX/UI concept through frontend implementation and deployment.

PROFESSIONAL EXPERIENCE

NEWWORK AI, Berlin | Working Student - UX/UI & Digital Product Design May 2026 - Present

- Designed modern web and mobile interface concepts in Figma, including Newsfeed and Team page concepts; translated product requirements into wireframes, mockups, interactive prototypes, user flows, and high-fidelity screens.
- Refined responsive layouts, navigation, interaction patterns, visual hierarchy, and UI consistency with an emphasis on intuitive usability and clear user guidance.
- Contributed to the company design system by creating and updating reusable UI components, variants, typography styles, color variables, icons, and consistent design patterns.
- Worked closely with product and technical stakeholders, presented design ideas, incorporated feedback, and supported website and WordPress-related work with an independent, structured approach.

Bexo Eats, Bengaluru | Freelance UI/UX Designer & Frontend Developer Client project

- Managed a real client website project end to end, from requirements gathering and concept development to UX structure, UI design, frontend implementation, testing, and handover.
- Created clear information architecture, page layouts, responsive interfaces, and calls to action, prioritizing usable navigation and a consistent visual design.
- Built and deployed the finished website using HTML5, CSS3, and JavaScript; tested across desktop and mobile screen sizes and resolved layout and usability inconsistencies.

CORE SKILLS
